CAREER OBJECTIVE

Results-driven Frontend Software Engineer with expertise in React, Next.js, and PHP, passionate about creating scalable, high-performance web solutions with optimized SEO and exceptional user experiences. Eager to leverage a proven track record of driving impactful projects and fostering innovation within a dynamic team.

EDUCATION

Bachelor of Science (BS)

Protestant University of
West Africa | 2020 – 2023

RECENT PROJECT

Online Exam Web Application

April 2025 – June 2025

- Architected and developed a robust online examination platform using React, TypeScript, Tailwind CSS, Redux, and PHP, specifically designed for university-level assessments.
- Engineered a comprehensive admin interface enabling full CRUD functionality for exams and questions, streamlining exam creation, management, and student performance review.
- Implemented secure exam access, ensuring single-attempt integrity for students, and supported diverse question types (multiple-choice, true/false) with customizable point values.
- Facilitated bulk question import via CSV and delivered instant scoring with detailed, real-time statistical reports on individual and overall exam performance.

TECHNICAL SKILLS

- **Frontend Development:** HTML, CSS, JavaScript (React, Next.js), TypeScript, Tailwind CSS, Bootstrap, Redux
- **Backend Development:** PHP, SQL, REST APIs
- **CMS & Web Management:** WordPress, SEO Optimization
- **Version Control & Collaboration:** Git, GitHub, GitLab
- **Database Management:** Database Design, SQL
- **Problem-Solving & Algorithms:** Data Structures & Algorithms
- **Performance Optimization:** Speed Optimization, SEO Best Practices
- **Responsive & UI/UX Design:** Mobile-First Design, Accessibility Compliance

WORK EXPERIENCE

PAIX TECHDOM (Lagos, Nigeria)

December 2022 – Present

Founder & Lead Web Developer

- Established and scaled a web development agency, consistently delivering custom digital solutions that meet diverse business needs.
- Directed a team in developing high-performing websites grounded in modern UI/UX principles, ensuring optimal user engagement and conversion.
- Spearheaded and executed SEO strategies that significantly improved client search rankings by an average of 50%.

Key Projects:

- Developed a seamless travel agency platform for Onidson Travels and Logistics Ltd.
- Built an impactful website for BSIC Advertisement, bridging creators, influencers, and business owners.
- Designed a visually engaging real estate agency website for Resida Housing.
- Created corporate business websites for Macmay Group and designed an interior-design agency website for Albert Interiors.

ONIDSON TRAVELS AND LOGISTICS LTD

Web Developer

June 2024 – December 2024

- Built and launched a fully functional website for a travel agency, effectively showcasing services and aviation courses.
- Integrated a customer inquiry contact form, significantly improving lead generation.
- Enhanced site navigation and responsiveness, ensuring a seamless user experience across devices.

SACULIET NIGERIA ENTERPRISES (LAGOS, NIGERIA)

Web Developer | December 2023 – June 2024

- Developed a secure certificate verification portal for a driving school, enhancing data integrity and user trust.
- Designed and implemented a visually engaging multi page site, consisting of a registration page and gallery, which effectively increased conversion of visitors into new students.
- Executed performance optimizations that successfully reduced page load time by 40%.

EDUAID CONSULT (IBADAN, NIGERIA)

Web Developer & Website Manager | November 2022 – December 2023

- Designed and developed responsive, SEO-optimized websites for an educational consultancy.
- Successfully improved website traffic by 30% through targeted SEO and performance optimization initiatives.
- Provided comprehensive technical support and implemented regular updates to ensure continuous smooth website functionality.
